Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 20, 21, 23-29, 32, 38-40, 43-51, 54-66, 69-81, and 84-87 are rejected under 35 U.S.C. 102(b) as being anticipated by Szafranski et al. (US 5,338,051 A).

3. Szafranski et al. discloses a plastic binding that is welded to the top surface of a ski not using screws and including a U or T shaped cross-section and undercut and a having front, rear, and middle portions, wherein said middle portion is narrower than the outer portions and said front and rear portions are able to move longitudinally, and all portions are of the same material which inherently gives them the same properties such as thermal expansion, flexural strength, torsional rigidity, and tensile strength, as shown in figures 1-10.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 30, 31, 41, 42, 52, 53, 67, 68, and 83 are rejected under 35 U.S.C. 103(a) as being unpatentable over Szafranski et al., as applied to claims 20 and 43 above.

With respect to claims 41 and 42, the method of welding has been given little patentable weight and is not considered patentable unless it produces an unexpected result.

With respect to claims 30, 31, 52, 53, 67, 68, and 83 the use of lugs for engaging apertures in the ski are well-known in the art and It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the binding of Szafranski et al. with lugs for securing to the ski before welding takes place.

Response to Arguments

6. Applicant's arguments with respect to claims 20-87 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
